

BATTERY KNIFE SWITCH COVER

PRODUCT OVERVIEW

The Ekyrail battery knife switch cover is a simple and effective safety solution designed to prevent unintended activation of locomotive battery disconnect switches. It helps secure maintenance operations by reducing the risk of accidental activation.

Designed to support lockout/tagout procedures, it physically blocks access to the switch and allows safe integration of maintenance practices in railway environments.

Its simple and robust design, combined with quick installation, makes it a reliable solution for maintenance environments and field operations.

BATTERY KNIFE SWITCH COVER

SAFETY EQUIPMENT

Features

Function	Prevents unintended switch activation
Compatibility	Designed for locomotive battery knife switches
Lockout	Allows padlock installation
Design	Simple and robust
Handling	Easy installation and removal

Usage

Application	Suitable for railway and maintenance environments
Use	Designed for workshop and field operations

Safety

Protection	Prevents access to the switch during operations
Compliance	Supports lockout/tagout procedures
