

LOCOMOTIVE CAB REFRIGERATOR

APERÇU DU PRODUIT

The Ekyrail cab refrigerator is a robust refrigeration solution designed for locomotive crews. It allows food and beverages to be kept cool during long working days on the rail.

Thanks to its compressor cooling system, the unit ensures fast and consistent cooling, even in demanding railway environments.

Designed to meet the requirements of cab work environments, it offers simple operation, durable construction, and high reliability.

LOCOMOTIVE CAB REFRIGERATOR

CAB EQUIPMENT

| | |
|---------------------------|--|
| Characteristics | |
| Cooling system | Compressor |
| Refrigerant | R134a (ozone-friendly) |
| Capacity | 2 cubic feet |
| Interior | Stainless steel with two shelves |
| Power supply | |
| Power options | 115 VAC (with inverter) 74 VDC available |
| Construction | |
| Thermostat | Fixed |
| Construction | Steel construction |
| Exterior finish | Textured powder coating |
| Hinges and latches | Reinforced for vibration environments |
| Compliance | Meets Clean Cab requirements |
| Base | With standard bolt pattern |
| Accessories | |
| Auxiliary outlet | 115 VAC 1 A optional |
| Dimensions | |
| Dimensions | 15" W x 14 ³ / ₄ " D x 37" H |
| Part number | |
| 1015001400 | Refrigerator with inverter included |
| 1260003300 | Refrigerator without inverter |
